Subject: Warm Springs monitoring reports - first round
Attachments: ATT00001.txt; water report 2019 - low water.pdf

Importance: High

Ricardi –

Can you look at these and concur with my findings? I see 14 samples all absent for total coliform, all with free chlorine ranging from 1.25 to .03 mg/L. If the second set are the same, I plan to concur with their request to lift the BWN.

Cc'ing Peter, Clarke, and Karen for awareness (Chris as well as her out of office indicates).

Adam Baron

Chico –

For some reason I get error when trying to open that attachment. See below. Maybe try downloading onto your PC and re-attach as pdf? If that doesn't work, maybe just take screen shots?

Standing by.
